Emergency Cards

Secondary Emergency Communication if Phones are Down

These Cards are designed to be shown in your front window or wherever they may be easily visible to neighbors/block captains. In the event that either communications are down, or there has been a crisis in which first responders are unable to promptly respond - and you need your neighbors to know that you need help, or just to let them know you are OK after an event has occurred.

Block Captains | During a crisis situation, please begin by taking care of your own family's immediate needs, and then check on your neighbors **as soon as possible** to assess whether they have put out cards and require attention.

1.Green | Everything is OK.

2.Yellow | You need help, but it is not an emergency.

3.Red | You need help ASAP!!
